CLERKS FINISH SAMPLE BALLOT TASK THIS WEEK

An augmented staff of clerks in County Clerk Ralph E. Deeble's office completed yesterday the preparing and posting of the 12,000 sample ballots for the approaching general election Nov. 7.

Electors will choose state, congressional, legislative, judicial, county and township officers in the election, and decide on eleven proposed amendments.

Principal interest in the county election centers around the race for supervisor of the fourth district. Edward J. Kohler, North San Juan, is opposed by Guy N. Robinson, Indian Springs.

Robinson, a rancher of the western end of the county has not been devoting much time to campaigning, but is considered the favorite of the two candidates to win. But should Kohler upset the prognosticators, oldsters state he would be first representative of the fourth district from the San Juan ridge section since before the turn of the century.

The only other race in the county is the constable contest in Nevada township between William Shipley and Joe Tredennick.

All other county and township offices were elected at the primaries last June 6 and they will not appear on the ballot this time.

In the state elections Republican Governor Earl Warren is opposed by the Democrat, James Roosevelt.

Lieutenant Governor Goodwin J. Knight is unopposed.

Secretary of State Frank M. Jordan, who holds the Republican and Democratic nominations, is opposed by George Walsh, Independent Progressive.

Controller Thomas H. Kuchel, who holds the Republican and Democratic nominations, is opposed by Alia T. Washington, Independent Progressive, and Virgil G. Hinshaw, Prohibition.

Treasurer Charles G. Johnson, who hold the Republican and Democratic nominations, is opposed by Reuben W. Borough, Independent Progressive.

In the race for attorney general, Edward S. Shattuck is the Republicas candidate; Edmund G. Brown holds the Democratic nominations; and Claude A. Watson is the Prohibition candidate.

Jerrold L. Seawell is unopposed for the board of equalization from the third district.

In the race for U. S. senator, Richard Nixon is the Republican candidate, and Mrs. Helen Gahagan Douglas holds the Democratic nomination.

Clair Engle is unopposed for congress from the second district and Francis C. Lindsay is unopposed for the assembly from the sixth district.

Phil S. Gibson is a candidate for state supreme court chief justice. Canidates for associate justice are Homer R. Spence, Roger J. Traynor and B. F. Van Dyke.

Measures beings submitted to the voters are:

No. 1. Prohibits state and its political subdivisions from imposing taxes upon personal property, tangible or intangible.

No. 2. Prohibits submission to electors of any constitutional amendment or law, which names any individual to hold office.

No. 3. Establishes uniform system of municipal and justice courts throughout the state. Directs that there shall be only one kind of court in a district.

No. 4. Permits electors who move from one California county to another within 90 days prior to an election, to vote in former county.

No. 5. Permits members of the legislature to hold office on commissions or boards.

No. 6. Permits wagering and gambling in licensed establishments.

No. 7. Provides that no blind person shall be denied admission from chiropractic license because of such blindness.

No. 8. Repeals prohibition of increase of salary of any elected official during his current term of office.

No. 9. Exempts from state civil service employees on part time basis.

No. 10. Requires approval of local electors as prerequisite of low-rent housing projects.

No. 11. Provides method of withdrawing land from registry.

BOARD TAKES LOYALTY OATHS HERE MONDAY

Members of the Nevada county board of supervisors were administered the loyalty oath as required by the recently passed state law Monday morning in the supervisors chambers at the court house.

It was the first full session presided over by Henry G. Loehr, Truckee, appointed board chairman Sep. 29.

Contingent upon the approval of the road commissioner, Joe O'Connor, the board approved request for right-of-way for installation of a telephone line by the state division of forestry from Shady Creek to Columbia. The line will parallel the county road.

The board also approved a request by county service officer, Tom Trauner, setting salary of Sam Gillam, at $200 monthly. Gillam replaces Mrs. Dorothy Shamberger, who resigned. A replacement for Gillam's position as second assistant has not been announced. The salary figure announced today will be effective until the first of the year, when the new salary schedule goes into effect.

G. M. Dodge, owner of the Dodge Sawmill at North Columbia complained of the "abominable condition" of two miles of road upon which two other mills are located. He requested action be taken for increased maintenance.

Ordinance No. 172, classifying and fixing the compensation of deputies, assistants and employees of the county, was adopted by the board.

The detailed ordinance incorporates the much discussed salary schedule which was adopted last July by the board and which will go into effect the first of next year.

Jay Coughlan offered the only dissenting vote.

The request of county treasurer Elma Hecker for $200 to take care of expenses of extra help in the office was granted.

Representing residents of the Higgins Corners-Wolf road area, William Valdon appeared before the board to express dissatisfaction of road conditions in that area. Valdon was informed that approximately $8000 remains to be spent on the Higgins-Wolf road and the project would be completed as soon as possible.

The board adopted a resolution authorizing the State Department of Public Works to make a survey of all county bridges for the purpose of determining maximum weight limits and posting each.

MCKENNEY RECOVERING FROM JEEP ACCIDENT

J. Wilson McKenney, Peardale, former co-publisher of The Nugget, is recovering at the Nevada county hospital from injuries received Monday afternoon when his jeep overturned on the Colfax highway, just east of Grass Valley city limits. McKenney was unconscious for almost 24 hours, and while still suffering from shock did not sustain any fractures.

McKenney, headed toward the city, apparently lost control of the jeep and it crashed into the bank and turned back onto its top pinning McKenney under the vehicle. Quick intervention by highway maintenance workers saved his life when they held his head above the ditch water until the jeep was removed from his body.

McKenney has been living on a Peardale ranch, doing freelance writing since he relinquished partnership in The Nugget on Aug. 1. He had only returned last week from a trip to Mexico for Desert magazine.

City Patrolman Clyde Garwood, who last week was stricken suddenly ill as the result of being bitten by an insect, returned to duty Monday afternoon.

WILL HONOR GOVERNOR

When the county celebrates the one hundredth anniversary of the discovery of quartz gold during the weekend, Governor Earl Warren will be presented with a gold stickpin carrying a large nugget. County Supervisor Carl Tobiassen will make the presentation.

OVERSEAS CHRISTMAS PACKAGES SHOULD BE MAILED BY NOV. 15

Postmaster William J. Wasley this week issued a warning to all those contemplating the sending of Christmas packages to those overseas by asking that people make every effort to mail the packages by Nov. 15.

Wasley said delivery would be almost a certainty if the packages were mailed by that time, but stressed that packages could be mailed after that date.

He added that the armed services could not guarantee delivery by Christmas if they are mailed later than Nov. 15 but that they would do everything possible to see that packages reached the troops in time for Christmas.

XRAY UNIT WILL BE HERE NEXT WEEK

The mobile X-ray unit of the California State Tuberculosis association will be in Nevada City Wednesday and Thursday.

From 10 a.m. until 12 noon of Wednesday the unit will be at the high school for the benefit of students and faculty as well as residents of the district.

At noon it will travel to a location in front of the Alpha store where it will remain open until 1:30 p.m., and will reopen at 5 until 7:30 p.m.

It will be open Thursday at the same location from 10 a.m. to 1:30 p.m., and from 5 to 7:30 p.m.

Friday, Nov. 3 the unit will be in North San Juan during the hours of 12 noon until 6 p.m.

Monday and Tuesday it will be in Grass Valley.

Mrs. Isabel Hefelfinger will supervise the clinic while it is in Nevada City and Miss Vivian Berggren will be with it in the ridge community Friday.

Children under 12 years of age must be accompanied by their parents when appearing for the X-rays.

NID DIRECTORS REJECT STUMPAGE BIDS FRIDAY

Nevada Irrigation District directors in a meeting Friday night, rejected bid of W. J. Rutherford for stumpage on Bear river acreage.

Accepted, subject to approval of N. I. D. attorney, was bid submitted by Roy Mitchell for purchase of ten acre plot of ground on Banner mountain.

Director E. B. Power and attorney P. J. Minasian were not present. They were in Santa Barbara for annual convention of Irrigation Districts Association.

An executive session of the directorate will be held at 9 a. m., this morning, followed by an open meeting at 11 o'clock.

CENTENNIAL OF GOLD IN QUARTZ STARTS TODAY

Nevada county hospitality of a century ago was uproarious and frequently punctuated by gunfire, but dignity, beauty and tradition will mark the three-day celebration of the county's Gold Quartz Centennial starting tonight.

The affair will commemorate George McKnight's discovery of gold quartz on Gold Hill near Grass Valley a century ago. The discovery precipitated the great quartz gold mining industry still an important part of the county economy.

The celebration will be held in Grass Valley but communities, organizations, and persons from all parts of the county are taking part in the celebration.

Historians point out that discovery of quartz gold in Nevada City was only a few days after the Grass Valley discovery when two New England youths gouged out the first quartz gold in this area at the site of the Gold Tunnel mine.

Many Nevada Cityans are taking parts in various phases of the celebration. John Douglas Conway, instructor at the elementary school here, is director of the historic pageant, "Birth of a Golden Empire," which will be enacted at the Veterans Memorial Auditorium, Grass Valley, tomorrow night. Script for the pageant was written by Al Trivelpiece, Nevada City newspaperman. The part of McKnight who started the quartz fever which contributed millions to the nation's wealth will be played by Robert Thompson, Nevada City high school student. James Underwood, another high school student here, will play the part of one of McKnight's companions when the great discovery was made.

William Tobiassen, Nevada City music instructor will enact the role of Richard Jose, the famed Cornish tenor who rose to world renown.

Tomorrow at 11 a.m. (weather permitting) a parade will be held in the Grass Valley business district with the procession featured by several ancient motor cars which chugged along Nevada county roads several decades ago. The Grass Valley Junior Chamber of Commerce has rehabilitated the cars.

One of the high points of the celebration will be the appearance of Governor Earl Warren at the patriotic and historic exercises at the auditorium Sunday afternoon. Also scheduled to appear are Senator Harold Johnson of Roseville, Assemblyman Francis Lindsay of Loomis, Congressman Clair Engle of Red Bluff.

Elmer Stevens will be master of ceremonies. The principal speaker will be Peter Conmy, of Oakland, past grand president of the Native Sons of the Golden West.

Although many organizations are taking part in the celebration the Native Sons and Daughters of the county are spark-plugging the celebration.

William Gallino is the general chairman for the observance and Miss Brita Berryman is secretary.

IT'S THAT TIME OF THE YEAR AGAIN

Miss Elma Hecker, county treasurer and tax collector, is the most popular official in the county on the basis of election returns at the primaries last June, but next week is that time of the year when the popular official temporarily loses her popularity.

It's tax billing time.

Starting Monday Nevada county's tax bills, printed on pink paper this year, enter the mails for delivery to taxpayers.

Mr. and Mrs. Horace A. Curnow are vacationing in Riverside at the home of their daughter, Mrs. Willard H. Winder and family.

CONGRESSMAN RICHARD NIXON

NIXON PROMISES TO BACK FREE GOLD MART

Congressman Richard Nixon, Republican candidate for U. S. senator, made two appearances here in which he combined attacks on Communist threats to world peace and security with a promise of full cooperation in moves to improve the gold mining situation.

Nixon spoke before a breakfast assembly of about sixty Wednesday at the National hotel and earlier in the morning he appeared before miners going on shift at the Empire mine and strongly advocated a free market for newly mined gold.

He urged a stable currency to resist the pressure of inflation. He charged that price increases in recent months can be charged to failure of the administration to bring about a stable economy.

ELKS RENDEZVOUS IN PORTOLA TOMORROW

The annual fall roundup of Nevada City Elks Lodge No. 518 will feature a trip to Portola tomorrow, according to Ed Frantz, Exalted Ruler of the local lodge.

Elks from Reno to Oroville are among the invited groups, according to Frantz.

Initiation will feature the lodge session at Portola tomorrow evening to be followed by a banquet at the Red Feather Inn.

Carl Noren and George Hansen are in charge of transportation, and declare the route will be by way of Truckee and the Sierra valley.

"Ticket to Timbuctoo" will be the theme of the first fall show of the local lodge scheduled for Saturday evening, Nov. 4, with Robert Schiffner host chairman of the event.

Hansen will be master of ceremonies at the show, scheduled to start at 9 o'clock and has promised a streamlined fun fest with whistles, club cars and upper berths.

Included on the waybill is the music of Jerry Austin and his Elks Playboys—old rhythm masters like Don Daniels on the trombone, also Bill Goerz; Bud Foote on the saxophone; Mel Davis with his clowning, and Turk O'Hara, the drummer boy.

A complete southern baked ham dinner will be served at 7:30 by six of the most popular chefs of the lodge: Mr. and Mrs. George Carter, Mr. and Mrs. Carl Foote and Mr. and Mrs. Mosco F. Smart.

WESTERN UNION TO BE MOVED BY NOV. 10

Word was received here Wednesday that installation of telegraphic communication facilities will be completed in the new location at the News and Novelty Shop Friday, Nov. 10.

Mrs. Gertrude Zollars, who has been Western Uniin agent here a number of years, did not reveal when and where she will be transferred.

Mrs. Mary Coules, 90, who made her home on the Idaho-Maryland road for the past 16 years, died at Nevada county hospital Sunday morning.

STANFORD PROF PREDICTS 20,500 IN COUNTY, 1960

Nevada county's population is expected to reach 20,500 by 1960, according to a prediction by Professor William A. Spurr of the Stanford University School of Buisness. Nevada county's 1950 census was 19,409 and the expected ten-year increase will be approximately six percent.

Nevada county showed only a .007 percent increase during the past ten years. The 1940 census report gave Nevada county a population of 19,283.

Spurr's report was prepared for California's county planning commissioners conference held last week end at Richardson Springs.

California's population is expected to reach 14,100,000 by 1960, predicted Spurr.

Biggest gains, he said, will occur in the counties adjoining Los Angeles and San Francisco counties, as well as in coastal resort areas such as San Diego and Monterey counties. The big cities themselves, however, will taper off.

The central valley area should also continue to forge ahead in population, the Stanford scholar stated. Little growth is expected, however, in the mountain and desert areas along the eastern side of the state.

Dr. Spurr expressed the opinion that the 52 percent growth in California's population between 1940 and 1950 was not due merely to the war boom, but was nearly typical of the long-term growth of the state, which has averaged 45 percent per decade over the past 90 years.

He estimates that the gain between 1950 and 1960 will be 35 percent, placing California close behind New York State in population.

STATE WIDE STORM BRINGS 3.04 RAIN

The gods of wind and rain opened their fullest blasts on Nevada county this week as a part of a storm that covered the northern part of the state. Precipitation of the storm up to 6 p.m. last night total 3.04 inches, according to Fred Bush.

Heavy winds yesterday afternoon accompanied the rain and lashed it to a fury. Yesterday afternoon's rain totaled 1.35.

The storm was accompanied by several interruptions of electricity. Snow was falling on the Sierra summits.

Bush's weather report for the past two weeks:

GOLD BRICK GUESSING CONTEST AT FESTIVAL

If you think you have a sharp eye for estimating the value of a large chunk of gold you have an opportunity to win fame and fortune ($20) during the Gold Quartz Centennial celebration in Grass Valley this weekend.

General Chairman William Gallino announced yesterday the gold display committee will have a piece of precious metal on display along with the gold quartz specimens valued at more than $150,000.

Cards will be provided upon which you can list your name and address and the estimated value of the gold brick. The person coming nearest the correct value will receive a $20 cash prize. Second place will be given $10 and third place will win $5.

Committeemen warned that only one guess will be allowed per person. If two cards are found signed by one person and one of the cards should bear a winning estimate, the prize will be awarded to the person making the next closest estimate.

WE NEED PRACTICAL SCHOOLING

Are we neglecting the practical needs of our students in our schools? Are we neglecting the practical development of manual training of the hands in our zeal for culture training that is often beyond the mentality of the adolescent?

The preamble of the Declaration of Independence declares that all men are created equal, but unfortunately it is not so. We are born equal in the sense of our right to life, liberty and the pursuit of happiness, but unfortunately we are not born equal in talents and capabilities. No amount of work nor practice can make a natural star of a duffer. And, unfortunately, to millions, is the fate of earning their living by the toil of their hands and the sweat of their face.

A great poet of the previous generation declared "the propositions of Euclid will not stop the bullet from your breast, the odds are on the cheaper man." No amount of cultural education is going to help the untalented individual earn his living. And the cultural education is wasted on Kipling's "cheaper man."

Nevada City high school has three teachers giving full or part time to music, but only one to the teaching of manual ability. And that manual arts class is not technical enough to enable a high school graduate to start a trade with the rudiments of its requirements.

Let us not eliminate nor reduce the cultural training in our schools, but let's add some technical courses—carpentering, plumbing, printing, electronics, automobile mechanics, metal working, geology, and similar subjects. Courses that will give a high school graduate sufficient practical knowledge to be able to compete in the workaday world. Unfortunately a vast number of our high school graduates cannot receive the higher education of college.

We can't believe there would be serious opposition to the project by the craftsmen of the community. For instance, if a printing class was established in Nevada City high school, and what little printing needs of the schools were accomplished by the class, we feel it would be better for our commercial printing business. Those students who had studied printing in school, and who in later life became businessmen would have a better understanding of the technical difficulties and requirements of the printing trade that would redound to more amicable relations. Applied to all other trades and businesses such practical education would go far toward dispelling the idea that the local businessman is charging exorbitant prices and getting rich in the process.

And a student who has been taught to use his hands is very unlikely to become a juvenile delinquent.

Politics is a "promising" career.

Politics, they often say, causes strange bedfellows, but we sometimes wonder if it isn't the same old bunk.

Here's a story that gave us a chuckle recently. A congressional committee in conference was weighing ways and means of spending $150,000,000 at its disposal. "If handled right," said one estimable statesman, "this will get us thousands of votes." "Let's build a bridge across the Mississippi," one suggested. "But that will cost only a few million," objected the chairman. "No, the way I mean, let's build it lengthwise of the river."

While we're picking on politicians, how about this one: A politician late to a meeting was accosted by a reporter who asked, "What do you think about the political situation today?" "Don't bother me now," the statesman cried, "I have to talk, this is no time to think."

It takes more than a spark of affection to keep a home fire burning.

Some folks are perfectly willing to work at anything but their jobs.

The little boy wasn't sure whether his dog's breed was upsetter or disappointer.

One of our gay young blades is blaming his buddy for a fractured hand. He says if his buddy hadn't picked the guy up off the floor he wouldn't have swung at him a second time and hit a door instead.

They say love is what will make a girl leave a perfectly good home to go house hunting.

The Bert See fund at a local eatery is fast accumulating a wealth of toothpicks, aspirins, IOU's, buttons and coppers.

NEVADA CITY GETS A BLACK EYE

We don't know the particulars in the case, but nevertheless Nevada City received a black eye in the editorial columns of the Sierra Booster of Loyalton.

The article, is herewith printed without comment:

"Entirely at his own expense some years ago a young fellow installed a gymnasium in an empty store building in downtown Nevada City. He installed weights and pulleys, a trapeze, boxing ring, punching bag and other such gymnasium paraphernalia. When the punching bag platform was built and the bag screwed into place, the young fellow and Joe Cartoscelli slapped it around a bit just to see how it worked. Within a minute the air was filled blue with vindictive adjectives. Looking around the two saw the saloon keeper's wife from next door and what she was saying about punching bags in general and this one in particular wouldn't do to print in a Sunday school pamphlet. It seems the bag made so much noise they couldn't hear patrons ordering drinks in the saloon. The chief of police was called in and he asked the young men to strike the bag softer. That was about like asking a halfback to walk around end. In spite of opposition, the gym was opened that night. Young fellows from the town came around, donned the gloves and had a lot of fun. This went on for about six months, every night. No charge was made and boys, most of whom were just out of high school, stayed off the streets, gained a fundamental knowledge of boxing and were kept in good physical condition. But in spite of the good the gym was doing, it was the target for opposition from city officials and some of the business people. The young fellow became fed up, pulled out his equipment and moved to Sierra county. There has been some talk of such a gym for Loyalton. Wonder if Loyalton can be bigger than Nevada City was?"

CONTEMPORARY EDITOR CRITICIZES OPPONENTS OF RECENTLY PASSED RED CONTROL LEGISLATION

The Nugget heerwith publishes George S. Ross' editorial in the Placerville Mountain Democrat, which defends the recent congressional controversial legislation designed to control Communism. We totally disagree with Ross in his article believing in the old fashioned concepts of Thomas Jefferson that he who is least governed is governed best. We realize our opinion on the loyalty oath is an unpopular one, but we feel any infringement on personal liberty is another step along a road that could eventually end in no personal liberties in the guise of paternalistic government.

GET OFF CLOUD NINE

There is abroad a degree of sotto voce grumbling about the "dangers" implied in the adoption of loyalty oath legislation making it mandatory for public employees to sign a document stating they are not members of subversive organizations.

We do not misunderstand the grumbling: it is not inspired here by Communists or other enemies of our institutions but is the honest but not-well-thought-out opinion of honest Americans. Well, honest Americans have the right to embrace their opinions and to launch them into the teeth of other opinions and it is well that they do. We intend here to give an expression of opinion supporting the need for our signatures on oaths of loyalty and we hope to be logical enough to convey to the wavering our opinion as to the real basis for such need.

First, let's examine two premises which we think will stand up as valid:

1—The Communist ideology has as a goal the violent overthrow of non-Communist states, including our own.

2—Our American scheme of laws allows little defense against such violence, whether by individuals, or international groups, until after the fact; until after the acts of violence take place.

Let's now draw an analogy in non-political and non-ideological terms:

Assume that Murder, Incorporated, has vowed, in statements made under oath, to kill all officers and agents of the State Board of Equalization (for example) and to take over that agency to promote its "more enlightened" aims. Assume further that there is nothing in the existing records of the leaders of Murder, Inc., which warrants their arrests to break up the conspiracy through due process of law.

Must the members of the offenseless target group then wait for the slaughter to begin to protect themselves? Further, must we all fear to corrupt our guaranteed "rights" by denying to Murder, Inc., the "right" to carry out its plot?

There's your analogy, imperfect but having some basic parallelism.

What can we do to forestall overthrow by force and violence, in other words, yet protect our civil liberties?

Well, the law makers say we can ask every American to sign again the type of pledge of faith in America that we have all been called upon to sign before.

Of course, chuckle the sotto voce objectors, there is nothing in the scruples of a Communist which will keep him from signing—surely he will not reveal himself and be tossed out of a government job just by refusing to sign an oath of loyalty to the country he intends to overthrow by any means available.

But that's the entire point. It's a mousetrap play if you know football. The line opens, letting the opposing lineman crash into our backfield; then wham, he's cut down by our protecting blockers, the sucker. It's a game of checkers and we can shove our king between the opponent's last two kings and get him into a trap. He's had it.

That's this bill, now law. If the Communist refuses to sign, he's fired out of his job in our government's soft underbelly. And that's a gain for us. If he does sign, we have, at last, got him in a violation of our perjury laws and can get him out of the government berth he loves and into the bucket he hates. We gain again.

As for losing our civil liberties, or posing a threat against democratic minority groups who speak out in our land, that's your fuzzy thinking.

No minority group born and bred in our free land is advocating the overthrow by force and violence of our government and the enslavement of our people. We retain the right to criticize and work against the government, against the Democratic administration, against the Republican forces, against the National Association of Manufacturers, against the CIO, against the New York Yankees—and this law or any other law cannot abridge that right.

By taking the stand that we have imperiled our way of life by making it a law for government employees to sign under oath that they are loyal to the government—which means loyal to you—our sotto voce complainers are conversing in empty syllables.

Every mother's son of us who goes into the armed services of the country takes an oath which has been in effect for years. We pledge to "protect the nation against all enemies, foreign and domestic" even if that means getting killed in the effort. Many of our lodges and clubs impose upon us the swearing to an oath of loyalty to our country. If we later find these oaths have been made in bad faith, we bounce the liars and cheats out on their ears. That's what we must do with the weasels in our government jobs.

And if that is a danger to our way of life, then our way of life must weigh that danger against the danger of selling out to Communism without much of a struggle on the D-day they've set for their acts of overt hostility in our land.

There may be some merit in reading from "Robert's Rules of Order" when a gang of thugs break into our otherwise orderly meeting of the "loyal and freedom loving debating society" and starts beating the chairman to death with his own gavel. But there's quite a bit of merit on the side of throwing the bums out on their ears, too. It should be evident to us by now that "Roberts Rules of Order" to a Communist is about as valuable as a comic book when compared with their great document of proletarian procedure, the Communist Manifesto.

That Communist Manifesto says, in effect, that you are going to become a slave or die.

Put that in your little opium pipe along with the malarkey of "coercion of minority groups in our free society" because, brother, if you don't fear Communism enough to stand up and be counted with 150 million-and-some Americans so that the Reds in our midst will stand out like the blood-stained criminals they are, you are indeed on Cloud Nine.

You Can't Build A Better Mousetrap!

"They're not the best-looking boarders a man ever had," Hack Turner said one day, "and they've got awful tempers. But I've found it pays to have 'em around."

Hack was talking about a family of barn owls, nesting in his silo this year. Some folks believe those little white-faced screechers kill chickens—and ought to be shot on sight. But Hack disagrees.

"Up at State University they've studied barn owls for years—and never known one to eat a chicken. On the other hand, a daddy owl will clean up around 300 mice a month. Farmers that kill barn owls are throwing away the best mousetraps known to man!"

From where I sit, when someone shows a prejudice against any group of animals or humans—it's usually just based on misunderstanding. For instance, some folks are plumb intolerant about those of us who enjoy an occasional quiet glass of beer. Get to really know us and you're liable to find we're pretty good birds at that!

HIGH SCHOOL WRITERS ATTEND JOURNALIST CONVENTION SATURDAY

Staff members of the Quill and Searchlight, Nevada City high school publications, and their advisor, Mrs. Margaret Stevens attended the 27th annual convention of the Central California Scholastic Press Association at Stanford University, Palo Alto, last weekend.

Staff members included Miss Pat Sturtevant and Miss Audrey Foote, co-editors of the Quill, the school's yearbook; Miss Irma Kendrick, Miss Shirley Hoar, Miss Patcine Foote, Miss Sandra Pease, all of the business staff of the Quill; Miss Gay Dames of the Quill staff, and Miss Doris Hedges of the newspaper staff,

Two colored motion pictures, "Type Speaks," and "Police Reporter," were shown. Various panel meetings were addressed by faculty members of the journalism school of Stanford and representatives of printing and engraving companies, on topics that included "Yearbook Production," "Community Responsibilities of Your Paper," and "Co-Ordinating Your Space Selling."

A luncheon was served in the dining room at Stanford Union, and this was followed by critical discussion groups and a tour of the campus.

Advisors attended the biennial meeting of the Northern California section of the National Association of Journalism Directors, and were addressed by Stanley Donner, professor of the department of speech and drama at the university, on "Radio and TV and How They Fit Into Your Life," and also by members of engraving and printing companies on "New Trends in Yearbook Production."

Mrs. Stevens also attended a lecture by Arnold Toynbee, to an institute of college professors of history on the topic, "Unification of the World by Way of the West." An active and illuminating question period followed the talk by the renowned historian philosopher.

Various points of interest in San Francisco were visited during the weekend by the girls, some of whom had never been to the city before.

ARMY TAKES FIVE LOCAL DRAFT GROUP

All five inductees who reported for duty in the armed services from Selection Service Board No. 16 serving Nevada and Sierra counties were taken by the army, according to Mrs. Dorothy Stephens, clerk of the local board.

William Leon Short, 23, was inducted into military service by transfer to Roseburg, Ore. He had registered here while residing in Grass Valley.

The men who reported for active service Friday are:

George William Bamber, 22, Grass Valley.

Sammy Joseph Pello, 22, Nevada City.

Donald Guerdon Ellis, 22, Nevada City.

David Arthur Wong, 22, Grass Valley.

Mrs. Stephens reported that 24 were called to report yesterday for physical examinations.

YELLOWJACKET BUZZINGS

NEWS OF NEVADA CITY HIGH SCHOOL

All the bells at high school rang Tuesday morning for the freedom drive at 9:03 a.m. The bells rang simultaneously with the freedom bell in Berlin.

A special Girls' League meeting was held Wednesday afternoon with Miss Helen Chapman, girls' advisor. Eight of the girls traveled to Palo Alto Saturday with Mrs. Margaret Stevens accompanying them.

Now that the heavy rains have started the rain clothes have been unpacked and the girls are playing basketball. And from the looks of the teams this year they are going to be the best yet. The freshmen really look good too—you'd think they'd been playing for years. The boys will probably be ashamed to pick up a basketball after seeing the girls.

Preparations for the Christmas dance have begun. It is to be held in the high school gymnasium Friday, Dec. 15. The dance is to be one of the large formal ones of the year. Mrs. H. J. Ray will be chairman. Mrs. Ray has called a committee meeting for Wednesday to start arrangements for this dance.

Attention! everybody! If you want some really good cookies, pies, cakes, salads and hot dishes, come to the sidewalk in front of Alpha Hardware tomorrow from 10 a.m. to noon for the big high school Parent-Teachers association food sale. Come early and have your choice of some fine home cooked dishes. Mrs. Ted Sigourney is chairman.

A bookkeeping test was given Wednesday with a history test today and a science test Tuesday.

Mrs. Margaret Newby is starting sewing classes on a project of skirt making. Some of them are really nice.

RECOVERED

Carroll Rogers, Jr., will return to Mount St. Marys Manday as he is doing very well since his emergency operation two weeks ago.

DECORATORS AND PAINTERS UP SCALE

Local Union No. 461, Paperhangers, Decorators Contractors Association adopted the Sacramento pay scale and working conditions at a meeting Tuesday evening at Freeman hotel, Auburn. Local No. 461 represents El Dorado, Nevada and Placer counties on the western slope of the Sierra Nevadas.

The new agreement calls for an increase in pay of 25 cents an hour to $2.25; a seven-hour day, 35-hour week; double time for overtime and holidays; eight cents mileage beyond 25 miles, to be effective one year from Dec. 1.

George Hansen, local painting contractor, is a member of the organization, which holds jurisdiction over all union painters and decorators in the district.

Don't Be Fooled!

Proposition No. 6 is no "pension measure"!

It makes no change in pension eligibility requirements.

By licensing every known form of commercial gambling, and taking a cut from the profits, Proposition No. 6—according to its promoters—would provide a new fund for payment of present pension benefits now being met by general taxation.

But before one cent would be paid for pensions, all expenses of a newly created, self-chosen 5-Man Gambling Commission would have to be paid in full!

Under Proposition No. 6, gambling spots would be *exempted from local taxes*—yet local communities would be burdened by the huge cost of *increased police protection* against the horde of racketeers, gangsters and hoodlums that Proposition No. 6 would attract to California.

Liquid Gold

It means a better living for you ... for all California

Here's Herman Diekman, head of the Agricultural Department of Lodi Union High School. His job is to turn out tomorrow's successful ranchers and growers. A substantial portion of the funds that support San Joaquin County Schools comes from P. G. and E. taxes. And, P.G. and E., by the way, is California's largest property taxpayer.

Irrigation water is California's liquid gold. Pumped onto farm land in P.G. and E. territory it increases average annual per-acre crop values *twenty* times!

This water, electrically pumped, helps grow 231 different crops; it has done much to make agriculture the basic industry of the state, with a gross annual farm income of 2 *billion* dollars. This huge sum flows into the channels of trade, creating jobs and prosperity in the cities as well as on the farms.

Yet, P.G. and E. electric power for irrigation pumping on the farm is so low in cost that, on the average, it constitutes only 3.5% of the farmers' crop production expense. And the rates the average farmer pays—just as the rates *you* pay—are among the lowest in the nation.

Le Roy W. Snyder is a Pump Test Engineer in our Stockton Division. His job is to see that customers' pumping plants deliver the maximum amount of water at the minimum cost. P. G. and E. maintains 9 pump testing crews, saves many thousands of dollars for its customers, makes no charge for the 7000 tests it runs annually.

Meet Kenneth Peake, dairyman, whose Claravale Guernsey Farm near Los Gatos is famous for its rich dairy products. Low-cost electric power has been a big factor in helping Mr. Peake toward success, as it has thousands of other dairymen, farmers and ranchers. Peake uses almost a dozen electric helpers; even his fence is electric. Yet his average monthly electric bill is only $24. "I don't see how anyone could beat the rates," he says.

Paul Bertoli of Santa Rosa, like thousands of other California truck gardeners, cannot afford to wait for the rains; depends, instead, upon ample low-cost electric power to operate 3 deep-well pumps to flood his acres. So electric power shall continue ample on farm and in city alike, plentiful reserves have already been provided by P.G. and E.'s $800,000,000. postwar expansion program, with still more facilities being built.

HISTORICAL MEMBERS CONDUCT EXCURSION TO POKER FLAT SUNDAY

Six members of the Nevada County Historical Society conducted an excursion to Poker Flat, on Canyon creek, the boundary line between Plumas and Sierra county, Sunday.

The party included Mr. and Mrs. Herbert Nile, Mrs. Isabel Hefelfinger, Mrs. Doris Foley, Mrs. Laura Bean, all of Nevada City, and Dr. H. G. Morley, of Berkeley.

Reports of the inaccessibility of the famous mining camp was a challenge to the curiosity of the members and with Sunday a beautiful autumn day, they fixed lunches and set out on the trek.

The party left Nevada City at 7 a.m., and traveled via Bullard's Bar, Challenge, Strawberry Valley, La Porte, St. Louis and Howland Flat. At the last named place one car was temporarily abandoned, and the descent into Poker Flat was continued in the Nile jeep.

The travelers agreed the grade was the steepest they ever saw, with some pitches at 30 and 35 percent. The road was covered with loose rock and shale, and Nile recommended only cars with four-wheel drive or a compound low gear attempt the grade. He said it was one of the grades on which miners and pioneers used to cut trees and drag as a brake.

The descent continues in the heavy pitch for two thousand feet to get into the famous old campsite.

The party reached the bottom of the canyon at noon and Poker Flat's remaining population, Victor Smith, mayor, and Jim Dryer, chief of police, joyously greeted them. The two men serve alternately as postmaster, making the 15 mile trip to La Porte to pick up the town mail. In winter the trip is made on snowshoes.

Mayor Smith invited the outcasts into his cabin, where a roaring fire soon revived them. Lunch was spread on the table, and fried chicken, potato salad, sandwiches, cake, candy, fruit and plenty of hot coffee were consumed.

Exploring the valley, they learned that Poker Flat begins at the western end of Devil's Gate, also known as the Narrows. Here Big Canyon Creek sluices into a five-foot opening in solid granite and empties into the Yuba river. A few yards from the Narrows, is a huge boulder known as Crevice rock. It is so named because in the 1850's, a miner named "Dutch" Doctore scooped up some $40,000 in gold from a crevice.

Four houses, a barn and the school house are all that remains in Poker Flat. Dryer was busily tearing down one building that was known as the Long House, and presented each woman visitor with a dish of old English stoneware.

The town was once bustling with fifteen hundred persons, and the many buildings on Main street included an opera house. More than $7,000,000 in bullion was taken from Poker Flat during the gold rush, and those were the days when gold was valued at only half of what it brings today. The town has become famous as the locale of Bret Harte's story, "The Outcasts of Poker Flat."

In 1929 some 250 families had camps there and mined an average of three or four dollars of gold a day. Mines in the area include the Alhambra, Tennessee, Deadwood, Gibraltar, and the Bunker Hill.

The best preserved house in the town belongs to Jim Scott, a cattle rancher, who brings stock into the Sierras for grazing during the summers.

When the tall mountain range hemming Poker Flat in began to cast long shadows over the canyon the six explorers climbed the tortuous grade from the valley. Each brought trophies of the trip—rock specimens, pine cones and such.

Mrs. Foley described the trip as a wonderful expedition on a perfect day.

NEVADA CITY NATIVE IS CALLED BY DEATH

"The way of the Lord is strength to the upright: but destruction shall be to the workers of iniquity." This verse from Proverbs (10:29) will be the Golden Text for the Christian Science lesson-sermon on "Everlasting Punishment" to be read this Sunday in all churches of Christ, Scientist.

Included among other citations from the Bible and from the Christian Science textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy, comprising the sermon, will be the following:

Psalm 103:2, 3: "Bless the Lord, O my soul, and forget not all his benefits: Who forgiveth all thine iniquities; who healeth all thy diseases."

Science and Health: "It is easier for Christianity to cast out sickness than sin, for the sick are more willing to part with pain than are sinners to give up the sinful, so-called pleasure of the senses. The Christian can prove this today as readily as it was proved centuries ago" (p. 138).

SUPERVISORS OPPOSE PROPOSITIONS 1 AND 6

Nevada county scpervisors Monday voted unanimous opposition to amendments one and six which would eliminate the personal property tax and open the state to legalized gambling if approved by the voters Nov. 7.

Resolutions opposing both measures were introsuced by Supervisor Frank Rowe, recently elected president of the state association of supervisors.

Rowe said the two measures had been considered harmful to California by the state association and that supervisors of many California counties within the next two weeks would enact resolutions opposing the measures.

The official said No. 1, if approved, would eliminate more than twenty million dollars in personal property taxes from county tax rolls — an amount which wocld have to be made up by taxes on real property.

Supervisor Carl Tobiassen, speaking on proposition No. 6 which would open the state to gambling, described the proposal as one which would open the state to gangster rule.

LOCAL STONEMASON TO WORK IN HIGH MANSION

The man who has cut many of the monuments of Nevada county the past 35 years was called Wednesday afternoon to continue his work in the mansions of the great beyond.

Funeral services will be held tomorrow morning at 10:30 a.m. at Bergemann Funeral Chapel for Claus Ludwig Netz, 72, who died Wednesday in the Nevada county hospital. Interment will be in the Odd Fellows cemetery.

Netz was born in Folum, Sweden, Oct. 7, 1878, where he was trained in the stone cutting trade before coming to the U. S. in 1906. He came to Nevada county in 1915, and five years later he established the Netz Monument Works on Factory street.

He was a past noble grand of the Odd Fellows Lodge, was a licensed real estate broker and enjoyed fishing and hunting.

Surviving are his wife, Arvida, Nevada City; two daughters, Mrs. Lily Price and Mrs. Mae Ehler, both of Martinez; two sons, Carl Alf Netz, Grass Valley, and Capt. Kjeld Netz, stationed with the U. S. army on Okinawa. A son, Louis, was killed in World War II. A brother in Norway and a sister in Sweden also survive.

MRS. HARRY BUELL SUMMONED TO REST

Mrs. Harry R. Buell, 60, died Wednesday morning at the Nevada county hospital, following a lingering illness.

The body will be taken to Marysville tomorrow for cremation. There will be no local services.

Gladys Sperry Buell was born in Middletown Jan. 29, 1890. She was graduated from the University of Washington and taught in remote regions of Alaska. She had also resided in the Hawaiian islands and Mexico before moving to Berkeley and Oakland.

Among her hobbies were horticulture and poetry, and an intense interest in her husband's painting. Her poem "Transition" was a tribute to her ability to compose and her courage in her last days.

Besides her husband she is survived by her mother, Mrs. Fanny B. Ashley; and two brothers, Arloe M. Sperry, and Hamilton Ashley, all of El Cajon.

BARRETT LIPMAN AT CONFERENCE

Thomas J. Barrett, Nevada county probation officer, and Michel Lipman, juvenile protection chairman of Nevada City Parent-Teacher Association, attended a one-day conference of the California Probation and Parole Association at Preston school of Industry, Ione.

Luncheon speaker, Joseph H. Harris, M. D., told the group important steps have been taken in recent years to change penal institutions into corrective clinics which would send offenders out into the world as stable, respectable citizens. He stressed importance of high morale and improved educational standards for prison attendants and workers.

After lunch, the 250 conferees toured the plant, inspecting dormitories, recreation rooms, disciplinary barracks, kitchens, hospital and workshops in which more than a dozen different trades are taught.

Barrett and Lipman attended an afternoon panel discussion, in which a typical case of juvenile delinquency was presented in detail, and methods of correction and help were discussed by the members.

NUGGET FREE TO ALL SERVICE PERSONNEL

The Nugget will be sent free to all personnel of the armed services for the duration of enlistments.

The only information we ask is the address and notification of changes of station.

The policy was initiated at the outbreak of the Korean incident but will become a permanent fixture in Nugget policy in war or peace.

Several servicemen have already taken advantage of the offer and The Nugget invites all service personnel from Nevada and Sierra counties, and the Camptonville section of Yuba county to accept the offer.

Sargent's Story

During the year 1851 a great excitement grew up in the neighborhood in reference to discoveries of gold in quartz. The hills upon Deer Creek, especially, were tunneled, and expensive machinery erected to realize upon the hidden treasures. Some of the schemes were remunerative, but the great majority were miserable failures. Pretended assayers convinced gullible stockholders in quartz veins that their rock yielded from ten to fifty cents per pound, when the real value was perhaps nothing, receiving of course good pay from their grateful customers. Under the spur of such welcome information, hundreds made themselves poor by misapplied capital. The "Bunker Hill Co." is an illustrious instance. They erected a costly mill upon Deer Creek, to use a certain roasting process that a favorite savant had recommended, by which they smelted the quartz in an immense furnace, expecting the gold to drop into a receiving chamber below. It is perhaps needless to say that they poked in vain in the ashes below the ore. Believing the experiment had failed through intrinsic defects in the philosophy, and not that their ledge was destitute of gold (for had not it been assayed with brilliant results?) the company next erected stamps to pound up the quartz in a more improved way. But, unluckily, the tailings were found to be very pure quartz and the affair was a failure. Perhaps the inventor of the grand roasting process is to this day in doubt whether his bold experiment might not have succeeded had there only been gold in the quartz to fall into the receiver! The loss of the company is computed at $85,000. The immense overshot wheel of the "Bunker Hill Co." at this day still adorns the creek, a huge monument of the fortunes buried there. Requiscat in pace! Many other establishments for quartz working were erected upon the creek, with no better result. At the palmy time of the quartz investments, doubts of great profits were deemed most heretical; but in one short year, the delusion was over. However our enterprising neighbors of Grass Valley may have profited by such investments they will have an uninterrupted enjoyment of them from the people of Nevada.

The first building adapted to theatrical purposes in Nevada was "Dramatic Hall," on the corner of Commercial and Pine streets, and is still occasionally used. It was first used by Dr. Robinson and troupe, in June of that year; Miss Carpenter, Mrs. Mestayer, Fairchild and the doctor were the principal attractions. It was the first attraction of the kind, and the company drew full houses for several weeks—the miners being too hungry for excitement to be very attentive to the quality of the performances. Tench E. Fairchild, now dead, poor fellow, was an extraordinary combination of brilliant talent, wit, sentiment, misdirected impulses, assurance, grace and good nature. He had been successively, in Illinois, printer's devil, law student, lecturer on temperance, agent of the State Temperance Society, speaking before the Legislature with great applause, editor of the State Temperance Organ, State Delegate to a World's Temperance Convention in London, clerk in a village postoffice, and crier at auctions. He ran a brief but splendid career in that state, more successful in avoiding fame than notoriety; he was master of a fervid eloquence, and the slave of his senses. In 1949 he emigrated hitherward, and took to the stage, upon which his wit and comic powers made him a general favorite. In 1851 he married Miss Carpenter, at Grass Valley, but did not long survive the wedding, dying at Sacramento of a constitution broken by intemperance, a few months after.

In August, 1851, Mr. and Mrs. James Stark played for one night in Nevada; drew a full house, but were off the next morning.

Brutal amusements, called bull and bear fights, were quite frequent in 1851, we regret to say continued for several years—though it may be hoped the county will never be disgraced with another. The arena for this display, in 1851, was on Bear street, back of the present site of Henderson's brick building, and large crowds used to assemble to go away disappointed because the harrassed animals would not fight. Incipient riots occasionally grew out of the affairs; but no excessive demonstrations were made. In one of the earlier scenes of this kind, a large bear got loose from his bonds, and scattered his keepers, who retreated at the outlets, closely followed by the bear, but the doors were shut quick enough to imprison the bear in the arena. He then tried to scale the plank walls of the amphitheatre, and the crowded seats were at once vacated, except by C. F. Wood and Dr. Kendall, who beat the bear back with a shovel and a heavy cane as often as his paws got in reach. They kept the bear at bay till he was lassoed by the Spaniards. The doctor had a very hairy visage, and his exploit gave occasion to the remark of a wag, that in the midst of the fray Bruin looked up, caught sight of his shaggy antagonist, and succumbed, overpowered by the reflection, "Et tu, Brute!"

In the summer of 1851, a new theatre was erected by C. Lovell and others over Deer Creek, on the lower line of Main Street. It was a commodious and handsome building, and was opened on the 20th of November, by the Chapman family, who played it for several weeks with tolerable success. The theatre proved ultimately to have a very insecure foundation. On the third of the following March, an immense storm of wind, snow and rain swept over the country, submerging Sacramento and Marysville, carrying off a great many bridges on the mountain streams, and destroying many lives. Thirteen men out of a company of fifteen lost their lives on the Middle Yuba, while trying to save a flume. On Wednesday night, the 3rd of March, the storm changed from snow to rain in Nevada, creating an immense rise of water in Deer Creek. On Friday evening it was ascertained that the theatre, called the Jenny Lind, was in danger, and during the night a heavy drift log came in contact with the pillars on which it stood, taking some of them away, and materially disturbing the others. Early the next morning the Broad street bridge was carried off by the rushing waters. All the forenoon a crowd was in waiting, expecting every moment to see the other bridge, the theatre and the adjacent buildings go down stream. At 12 o'clock a heavy log came in contact with the Main street bridge, which was immediately above the theatre, and took it from the foundations. The accumulated mass took the remaining props from under the theatre, and the building settled into the current, becoming almost instantly a total wreck, going down the foaming stream in fragments. The Illinois boarding house adjoined the theatre and shared its fate. The loss to the town and individuals was about $10,000. The peaceful character of the creek the year before encouraged the people to build over it, but the lots have been unoccupied since this catastrophe.

"Concert Hall," now used for theatrical purposes, was built in September, 1853, as an assembly and concert room, on Washington street, by L. P. Frisbie, but was subsequently arranged as a theatre. Many of the most celebrated stars ever in the State have trod its boards—Waller, Murdoch, Stark, Madame Bishop, etc.

TAXABLE SALES CLIMB DURING 2D QUARTER IN NEVADA COUNTY

Nevada county showed an improvement in business conditions during the second quarter of 1950 over the quarter of the previous year, according to the report of taxable sales for the period by the division of research and statistics of the state board of equalization just released.

Nevada county's taxable sales during the second quarter of this year totaled $3,835,000 a boost of 1.29 percent over the previous year. The state average was an increase of 5.61 percent.

Contra Costa county led the state in business improvement with an increase of 31.59 percent. Other bright spots included Del Norte, Humboldt, Mendocino, San Mateo and Yolo counties. At the other end of the chart Plumas county showed a decrease of 18.79 percent. Other heavy losers included Modoc, Sierra, Trinity, Madera, and Lake counties.

The board of equalization simultaneously released a report of the fiscal year ending June 30, and Nevada county showed a loss of 2.65 percent over the previous year compared to a state average decrease of 1.85 percent.

Mono county was the bright spot of the year with Trinity at the worst end.

Counties with good increases in the report included Colusa, Contra Costa, Del Norte, San Mateo, and Yolo counties. Heavy decreases were reported by Kern, Kings, Lake, Modoc, Plumas, San Francisco, and Sierra counties.

Taxable sales for Nevada county during the 1949-50 fiscal year amounted to $14,633,000.

BEES WIN THIRD AS PIESER HURLS THREE TD PASSES

Halfback Steve Pieser heaved three touchdown passes to lead Coach Bob Bonner's Nevada City high school junior varsity squad to a 21 to 6 victory over San Juan high school Saturday afternoon at Fair Oaks.

San Juan scored first in the opening quarter on a short pass and ran from their own 25. They failed to pick up the extra point.

Four plays later the Bumblebees scored on a pass from their own 25 from Pieser to Ray Kirk. Ernie Pello ran off tackle for the extra point.

For the third score Pieser connected with Bill Behrbaum in the end done. Sturtevant bucked center to pick up the extra point.

Pieser also played a strong defensive game. Wayne Whitlock, guard, stood out for aggressive line play. At one point Whitlock sliced through the line to block a punt.

GRAND NATIONAL THUNDERS INTO S. F. COW PALACE

Top cowboys of the nation poised for the International Rodeo Association Championship Finals for 1959—

Royalty of Western horseflesh groomed for the Pacific Coast's million dollar tanbark classic—

Final rehearsals for some of the nations top arena specialty acts—

A huge new carnival "Fun Zone and Kiddieland" for the crowds before and after the big show—

And thousands of animal lovers treking to San Francisco from all over the country.

This was the picture at San Francisco's gigantic Cow Palace today for the opening of the world's biggest combination animal thriller, the Grand National Livestock Eposition, Horse Show and Rodeo.

The Grand National continues for ten days. There will be performances of the great Arena show nightly, tonight through Nov. 5 with matinees Saturday and Sunday Nov. 4 and 5.

DOG PRIZE WINNER

A Great Pyrennes entered by Mrs. John Mlinarich, Nevada City, took three ribbons at the annual Kennel Club Dog Show held Sunday at Sacramento. Awards were for first place, best of breed and winner.

TURKEY DNNER

A turkey dinner will be served members of the Nevada county Sportsmens Club tomorrow night at Deschwanden's Hall. The program will also include several reels of sports films. Arrangements are being handled by Tom Keckler.

GOOD FISHING

O. J. Melton, local groceryman, had fisherman's luck Tuesday by hooking a 20-pound and a 12-pound salmon from the Feather river at Marysville. Dutch used a double spinner to catch the big ones.

YELLOWJACKETS LOSE TO SAN JUAN 32 TO 12

The San Juan High School Spartans spotted Nevada City footballers six points in the first two minutes Saturday, then rallied to rack up a 32 to 12 triumph in a Sierra Foothill League game on the San Juan field.

Touchdowns by halfback Clark Massey, fullback Floyd Dunlap and halfback David Davis, plus an extra point by Jim Daid, gave the Spartans a 19 to 6 halftime lead.

Joe Griggs accounted for the Nevada City six pointer.

Early in the third quarter quarterback Jim Grack passsed to end Loran Shurrum for the fourth San Juan touchdown.

Gracey passed to Dick Easterbrook, the play consuming 70 yards, for the winners final marker in the fourth period.

An aerial from Jerry Brady to Doug Atkins counted for Nevada City's second touchdown with three minutes to play.

ARMSTRONG RE ELECTED FARM BUREAU PREXY

C. O. Armstrong, president of the Nevada county Farm Bureau Federation and cattle raiser in the Lime Kiln area, was reelected at annual meeting Saturday night at Grass Valley high school. He was opposed by Donald Gates of Rough and Ready and Barker Cates of Kentucky Flat.

Wright Coleman, North San Juan, was reelected vice president and C. J. Rolph, Chicago Park, was retained as state delegate.

Rebert Roesner, county secretary of the farm bureau, reported the 1950 membership drive is expected to end with 94 percent of all families in the county signed as members. Of the 394 farm families more than 360 already are committed to membership or have signed.

Speaker was Louis Rozzoni of Berkerley, vice president of the state federation.

GENERAL SHAKEUP OF IDAHO MARYLAND MEN

Charles L. Allen became general manager Tuesday of the Idaho-Maryland Mines Corporation, operators of the Maryland and Brunswick mining properties.

Allen was elected to the management at a meeting of board of directors in San Francisco on Monday and succeeds Neal O'Donnell, whose resignation as executive vice-president and general manager was accepted.

O'Donnell will remain as member of the board of directors, the president, Edwin Letts Oliver, announced.

Oliver also stated the office of executive vice-president has been abandoned with all duties being consolidated under the title of general manager.

Allen has been with the company for 15 years. He was formerly chief accountant for the company at the Grass Valley operations office and left for San Francisco a year ago to take the secretary-treasurer position.

O'Donnell has been executive vice-president and general manager the past six years.

MARYSVILLE GAMES POSTPONED BY RAIN

Gridiron games between the A and B teams of Nevada City and Marysville high schools, which were scheduled for last night at Hennessy field were postponed when the first heavy rain of the season hit the county.

Ed Frantz, principal of Nevada City high school, said the postponed games will be played at Hennessy field either Wednesday night or on Tuesday, Nov. 14.

The game between Bob Bonner's Bees and the Marysville Papooses is doped to be the contest that will decide the B championship of the Sierra Foothill League.

CONTINUE WINNING WAYS

Nevada City high school "C" basketball squad took its fifth Sierra foothill league game out of six, defeating San Juan 23 to 20 Saturday afternoon at San Juan.

San Juan lead 10 to 9 at half time.

Nelson was high point man for Nevada City with 8, followed by Fischer with 5, Thomas and Peterson 4 each and Egan 1. Carl Foote also saw action.

C CAGERS LOSE TILT TO WHEATLAND TEAM

Nevada City high school C basketball squad went down 23 to 14 to Wheatland high school five in a practice game played here Wednesday.

High point men for the locals were Peterson and Fischer with six each. Nelson accounted for two points. Fukui led the visitors with nine, followed by Torres with eight.

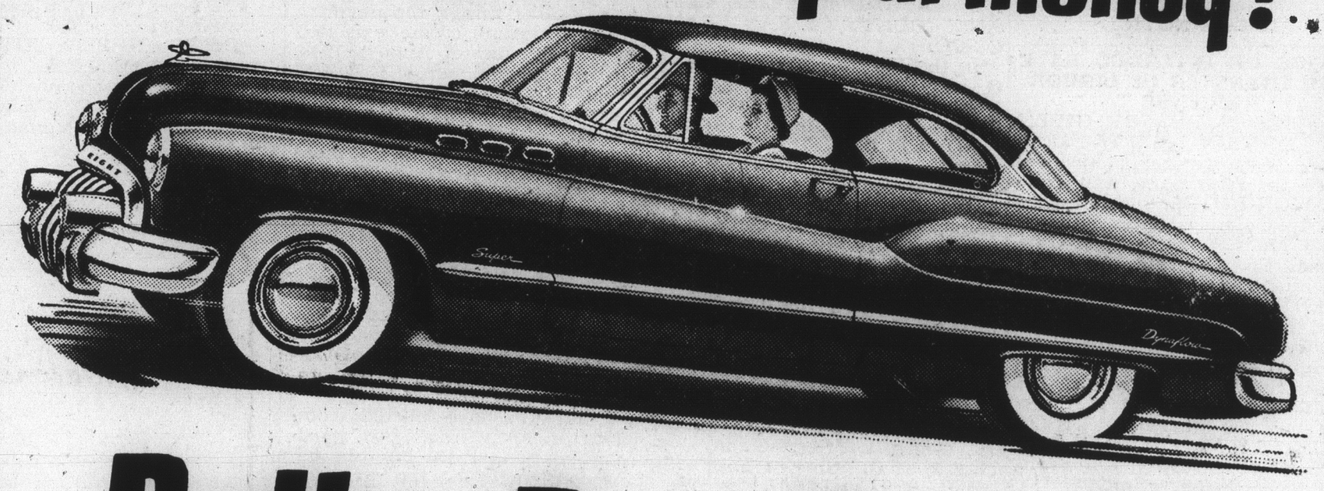
Want a long run for your money?...



Better Buy Buick!

You want a new car to be tops in things like style and room and comfort and power—

—and a thrill-packed fifteen minutes with the nimble number pictured here will show you it has all these things in abundant measure.

So you ask us—how about money? What does it cost to buy a Buick—and to own one?

All right—let us ask *you* some questions.

Take first cost. Do you know that Buick prices start down at a level below what you'd pay for some sixes—and that every Buick, on a cents-per-pound basis, is a standout buy?

Take operating cost. Do you know that the bang you'll get from Buick's Fireball power comes from a valve-in-head engine—recognized by engineers as a thrifty saver of fuel?

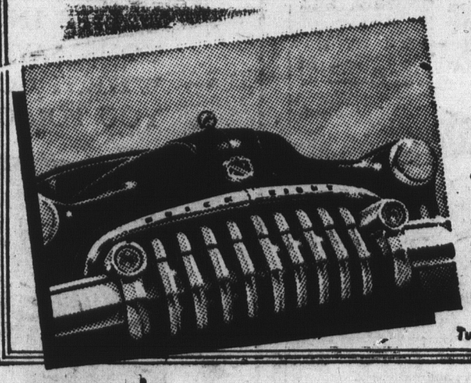
Do you know that owners of 1950 Buicks are writing us rave letters, saying that this year's version is the most economical Buick ever built?

Do you know that such comfort features as coil springs on all four wheels protect the car as well as the passengers—and throw in an extra saving because they need no servicing, and are practically breakproof to boot?

Do you know that Dynaflow*—in addition to keeping you fresh as a daisy on a day-long drive—caps its convenience with savings on tires, cuts down the strain on transmissions and engines—and eliminates all friction clutch repairs, because it hasn't any?

Take final cost. Do you know that when the owner of a Buick gets a yen for a later model, *the prices that Buicks command on a used-car lot are the ultimate proof of their long-run value?*

So if you want a real run for your money, better buy Buick. And the first step is very simple: Go see your Buick dealer—soon—and get an order signed.



***FOUR-WAY FOREFRONT**—This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.*

** Dynaflow Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.*
